

2X 3 attached to the eccentrically mounted cam which is let-out from the eccentrically mounted cam, when the eccentrically mounted cam is rotated, a return cable attached to the eccentrically mounted cam which is let out from the eccentrically mounted cam when the eccentrically mounted cam is rotated and wherein at least the return cable provides a compound effect.

Remarks

Claims 35-43 are pending in the application. Claims 35-37 are allowed. Claims 38-41 have been amended to overcome the rejection under 35 U.S.C. 112, second paragraph. New claims 42 and 43 have been added to further define applicant's invention.

It is respectfully submitted that claims 35-43 are allowable.
